Overview of available integrations

Last Modified on 10/16/2026 7:13 am EDT

Connections are in Settings > Connections.

What you can connect

- Cards (NMI): moved to Settings > Payments.
- Background checks (Checkr): your own Checkr account. Pick the packages for staff and volunteers, set the default work state and city, and click Save Checkr settings. Use staging to test with no charges.
- Mailchimp: newsletters.
- DocuSeal: e-signatures for policies.
- Dropbox and Google sign-in: listed but not used. Files already live in HelpOne, and people sign in with email and password.
- QuickBooks Online: export your journal from Finances > Books.

Email and text

HelpOne sends email and text for you. You don't need to connect a mailbox.
