

How to complete a staff review

Last Modified on 09/02/2026 12:46 pm EDT

Steps

- Open the staff record.
- Choose Reviews, then start a new review or open one that is due.
- Complete the sections your organization uses (goals, comments, ratings).
- Save. Submit when the review is finished.

Tip: Keep reviews on the staff record so history stays with the person, not in a separate spreadsheet.
