

Understanding HelpOne payment rates

Last Modified on 09/02/2026 1:40 pm EDT

HelpOne processes donations and event payments with competitive flat rates or interchange-plus pricing. Most organizations save compared with typical 3%+ nonprofit processors.

A HelpOne software subscription is not required to use Payments.

For the current rates and how to enable Payments, contact hello@helponesoftware.com or your implementation contact. Do not publish a rate in this article unless it is confirmed in writing.
